C. Operational Codebook and Decision Rules

Table C. Operational codebook and decision rules

Variable	Category	Operational Inclusion Rule	Exclusion/Tie rule
Primary actor	Regent of Lumajang	Regent is the actor foregrounded in the headline, lead, and main informational purpose.	Do not assign merely because the Regent is mentioned secondarily.
Primary actor	BPBD	Lumajang disaster-management agency is the actor foregrounded in the headline, lead, and main informational purpose.	National/provincial or other agencies are coded as other government.
Primary actor	Other government institution	Any other executive, legislative, security, technical, health, or public institution is primary.	Use BPBD or Regent when those specified actors are dominant.
Primary actor	Volunteer/NGO	Volunteer group, charity, NGO, religious/civic organization, or non-state relief actor is dominant.	Community residents without organizational representation are community.
Primary actor	Community member	An affected resident or unaffiliated citizen is the actor most centrally foregrounded.	Do not assign when residents appear only as recipients of official action.
Communication form	Situation/institutional update	Conditions, impacts, decisions, visits, assessments, response operations, or authorized accounts are the main function.	Use aid/logistics or evacuation when these are the dominant practical purpose.
Communication form	Aid/logistics information	Main function concerns aid needs, provision, distribution, services, housing, or logistics.	Do not use for a passing mention of assistance.

Communication form	Protective-action/evacuation information	Human movement away from danger, an evacuation order or status, a route, shelter, or displaced-person movement is the main function.	Exclude recovery of objects. General appeals without evacuation as the main function are appeals.
Communication form	Appeal	Main function asks or recommends an action other than primarily reporting evacuation information.	Do not use for purely descriptive official statements.
Message theme	Disaster response	Immediate emergency action, rescue, relief, services, damage handling, or operational response is central.	Use recovery when the dominant horizon is longer-term restoration.
Message theme	Post-disaster recovery	Rehabilitation, reconstruction, relocation, housing, livelihood restoration, or longer-term repair is central.	Do not use for immediate relief distribution.
Message theme	Disaster conditions	Hazard, impacts, damage, casualties, weather, or situational condition is central.	Use response when action rather than condition is central.
Message theme	Instructions/appeals	A requested protective or civic action is the primary topic.	Communication form and theme are coded independently.
Message theme	Government policy	Formal decision, status declaration, regulation, budget, or policy direction is central.	Operational implementation belongs to response or recovery.
Message theme	Inter-agency coordination	Coordination roles, joint command, information sharing, or institutional cooperation is central.	Do not assign for multiple agencies merely being listed.
Tone	Positive	Overall treatment supports, praises, or highlights successful government performance.	Factual reporting without evaluative support is neutral.
Tone	Neutral	Predominantly factual/descriptive with no clear praise or criticism.	Mixed evaluations default to the dominant orientation.
Tone	Negative	Overall treatment criticizes, questions, or highlights failure/shortcoming in government performance.	Do not infer negativity solely from severe disaster impacts.

Note: General dominance rule—Code the category most central to the article's headline/lead and main informational purpose. If two categories remain equally salient, apply a pre-specified hierarchy based on the explicit headline and first substantive attribution; document the tie. Reliability coding must be independent and completed before reconciliation. BPBD = Badan Penanggulangan Bencana Daerah (Regional Disaster Management Agency), referring here to the Lumajang agency. NGOs = non-governmental organizations

D. Paired Decisions for the Intercoder-Reliability Subsample

Table D. Paired decisions for the intercoder-reliability subsample

ID	Abbreviated Article Title	Actor (C1/C2)	Form (C1/C2)	Theme (C1/C2)	Tone (C1/C2)
1	BPBD explains emergency response	BPBD/BPBD	Statement/Statement	Response/Response	Neutral/Neutral
5	Emergency status extended	Regent/Regent	Statement/Statement	Policy/Policy	Neutral/Neutral
11	Housing-data collection for relocation	Other government/Other government	Statement/Statement	Recovery/Policy	Neutral/Neutral
13	Post-eruption monitoring technology	Other government/Other government	Logistics/Statement	Response/Response	Neutral/Neutral
19	Regent visits lahar location	Regent/Regent	Statement/Statement	Response/Response	Positive/Positive
23	Regent reports post-disaster conditions	Regent/Regent	Statement/Statement	Conditions/Conditions	Neutral/Neutral
29	Education continuity after eruption	Other government/Other government	Statement/Statement	Policy/Recovery	Neutral/Neutral
31	Religious anniversary event	Other government/Other government	Statement/Statement	Policy/Policy	Positive/Neutral

32	Evaluation for isolated households	Other government/Other government	Logistics/Logistics	Response/Policy	Neutral/Neutral
34	Semeru alert level reduced	Other government/Other government	Statement/Statement	Instruction/Instruction	Positive/Positive
36	Police public kitchen	Other government/Other government	Logistics/Logistics	Response/Response	Positive/Positive
46	Trauma healing for displaced children	Other government/Other government	Logistics/Logistics	Recovery/Recovery	Positive/Positive
50	Provincial aid distributed	Other government/Other government	Logistics/Logistics	Response/Response	Positive/Positive
68	Cold-lahar flood affects settlement	Community/Community	Evacuation/Evacuation	Conditions/Conditions	Negative/Negative
69	Temporary-housing allowance	Regent/Regent	Logistics/Logistics	Response/Recovery	Positive/Positive
71	Infrastructure repair over 90 days	Other government/Other government	Statement/Statement	Recovery/Recovery	Neutral/Neutral

Note: C1 = first coder; C2 = second coder. Alpha was calculated from these unreconciled decisions. Superscript-like reference numerals embedded in the second-coder report were treated as document artefacts and not as category labels. The matrix retains the category labels and decisions used in the earlier reliability exercise. BPBD = Badan Penanggulangan Bencana Daerah (Regional Disaster Management Agency), referring here to the Lumajang agency.
